

Progress Report with Q&A

Competition strategy:

- Total presentation time **at most** 15 minutes and 5 minutes for the Q&A session.
- Two random groups will compete against each other.
- One group will present while another group will ask questions.
- Another group (who asked questions) will present next.
- Group discussion is allowed before the Q&A session.

Question policy:

- Questions should be asked from the course materials till the last lecture.
- Each student must ask a question.
- Each student must answer a question.
- No repeated questions are allowed.
- Ask a question to only one student (say the student's name before asking the question).
- Submit your question through the zoom's chat box.

Penalties:

- Questioner needs to know the answer to the question. Otherwise, the questioner needs to submit a homework assignment while answering half the questions that will be asked during the Q&A session.
- If the presenter does not know the answer, then the presenter needs to submit a homework assignment while answering half the questions that will be asked during the Q&A session.
- If a student neither answered nor asked a question, then the student needs to submit a homework assignment while **answering all the questions** that will be asked during the Q&A session within a week.
